

thousand pines
outdoor science school

Dear Parents,

Thousand Pines Outdoor Science School is located 5,000 feet high in the San Bernardino National Forest in Crestline, CA. The Science School offers your child an outdoor classroom where California State Science standards for 5th and 6th grade is taught by utilizing hands-on experiences with nature. Students learn together in a forest environment where direct experience and observation provide unique learning opportunities.

Thousand Pines Outdoor Science School experience is more than just hiking on trails. Our program instills in students self confidence by participating in multiple activities like; team-building initiatives, cabin clean-up, night-hikes, the climbing wall, singing, skits, mealtime manners, and various group activities while on the trails. At the end of their stay, students get a chance to test their knowledge in the Outdoor Science Jeopardy Game, and enjoy a video of their week at science school.

Enclosed you will find two forms, the Student Registration Form and Medication & Prescription Authorization (which requires the doctor's signature for prescription medication). ***Please return both forms to the school.*** Also included is a Clothing and Equipment List. Please follow the instructions on the forms carefully to ensure the best care for your student.

If you have questions regarding the outdoor science school experience, we highly recommend that you attend the science school information meeting if one has been scheduled for your school. This provides a great opportunity for you to have all of your questions answered. If one has not been scheduled, please direct any questions to your school's outdoor education coordinator. For more information about our program and facilities, check out our website at www.thousandpinesoutdoored.com.

We look forward to hosting your student at Outdoor Science School!

Thank you,

Christopher Day
Director
